10 Reasons to Join C80 Group

C80 GROUP

10 Reasons to Join C80 Group

1. We are in the process of building a £30m Group of companies in the building consultancy and compliance market, which we feel is fragmented and ripe for consolidation.
2. All our acquisitions are strategic and designed to add value to both the new company and the existing companies in the Group via synergies and capitalising on cross selling opportunities.
3. But, we're not just about M&A. We also work hard to organically grow our companies via recruitment, sales & marketing, cross selling, geographic expansions and new service offerings.
4. We don't have to acquire 100% of the shares and we're happy for current shareholders to retain some equity and stay in the business.
5. We don't rebrand the companies that join the Group. We retain the existing brand.
6. We are not in the game of asset stripping or head count reduction in order to reduce costs. We retain and develop all existing members of staff in the event of an acquisition.
7. We are experienced at acquisitions and our track record speaks volumes. We were able to double the size of an acquired company within its first year.
8. Numbers and financial metrics are important, but we are all about people. We invest in our people and look after them.
9. We care about our customers and always aim to provide a reliable service. Check out our 5-star reviews.
10. We have HR, Finance, Marketing, Operations, IT, BD, Admin and NED functions available at Group level for your business to utilise.
